DONWELL COMPANY, INC.

Donwell Company, Inc. was started over 60 years ago in 1957 by Don Sherman and Wellman Burnham and the name DONWELL was adopted. They worked hard to obtain the approval to become a licensed **DuPont Teflon®** application company. Donwell is one of the very first companies to be licensed in the entire USA and perhaps the world.

Donwell has the capability to handle a wide range of part sizes and shapes.

They can apply a variety of high performance coatings to serve applications in: aerospace, medical, food, industrial, military and most recently, are now licensed for Federal Firearms / SOT. Some of the high performance coatings are Dry Film and Solid Film from: Everlube®, Lube-Lok®, Sandstrom®, Molykote®, Gun-Kote®, Electrofilm and several other specialties. They can apply coatings from one piece to a million pieces, miniature in size to 20 feet in length. They are a quality conscience company operating within the ISO 9001 compliance and approved by several aerospace, military and commercial companies. Quality management uses SPC (Statistical Process Control) and Continuous Improvement with zero defects as the goal.

Donwell coats large quantity production as well as single piece lots.

Quality Control at Donwell covers a wide range of checks to assure customers they are getting the best product possible at Donwell.

They continually check all aspects of part preparation, coating thickness, curing temperature, cure time and handling procedures.

What makes this company good at what they do is their customer assistance and engineering

background. They have years of experience to advise the best coating, based on the particular application. If you have a question on one of your applications, first check www.donwell.com for a lot of helpful information, then talk to Donwell's sales engineers. They can walk you through the coatings and suggest the best for your application.

OPERATION STUPID

Near the end of my operation, the anesthesia stopped working and I quickly realized I was in a unique position. I saw the surgeon working on the laceration and it dawned on me.

“Doctor, if you wouldn’t mind, I’d like to close the incision myself!”

He wasn’t happy about it and reluctantly handed me the needle and thread with the clear instruction, “Suture self!”
