Teflon™ coatings

Improve part performance
with unique properties of Teflon™ coatings!

Coatings can be applied to:

- metals
- elastomers
- ceramics
- composites
- rubber
- glass

As a licensed industrial applicator, Donwell...

- provides custom coating services to your specifications.
- coats both small and large parts to close tolerances in quantities from 1 to 1,000,000.
- has over 50 years of high-performance coating application expertise.

1-800-864-2702

PLASTIC SUPPLY, Inc.

Written by: Jeff Longden

Plastic Fabrication Made Simple From prototyping to production runs - we've got you covered!

"I want to say one word to you, just one word. Plastics..." Just five years after the famous quote from 1967's The Graduate resonated with millions around the world, Plastic Supply Inc. was founded and has been servicing a diverse array of industries ever since. Plastics are still a relatively new discovery, only dating back to 1856 when the first "man-made" plastic, Parkesine, was invented by Alexander Parkes in Birmingham, UK. It wasn't until the early 1900's, with the discovery of synthetic thermosetting by Leo Baekeland, that many of the modern-day plastics we're now familiar with began to be produced. Today, the plastics industry is worth a whopping \$962 trillion dollars annually! Plastics truly are everywhere, typically found in already produced consumer goods.

But where do you go when you need something custom?? Who can you source if you just want to buy raw material?? How do you even go about deciding which grade and type of plastic is best suited for your needs??

We can generate drawings for your parts.

Plastic Supply provides one stop shopping, literally, for all of your needs! Our state of the art facility, located just off Exit 5 on I93 in Londonderry, NH, is fully stocked with a large array of plastic sheet, tube, rod and more. Visit our showroom to touch and feel the many plastics available. Once you determine an appropriate plastic, we can simply walk from the warehouse to our production floor and make whatever you can imagine- from prototyping to production runs. We know plastics, we know the industry, and most importantly- we know the importance of customer service!

Our sales team will happily assist you via phone, email, at our counter or even on site!

One of our 5' x 10' CNC routers in action.

Distribution

“Be so good they can’t ignore you” – Steve Martin

By consolidating production and raw material purchasing to one location, you save both time and money. Our facility is set up with warehousing opposite our production floor. We distribute for the vast majority of major plastic manufacturers all over the world and can obtain pretty much any type of plastic imaginable. Whether you need pallets of plastic or just a few square inches- we’ll get you exactly what you need! In most cases, you pay for the exact size you purchase, thus saving

We bend plastic!

you money on unnecessary waste. Our warehouse is always open to the public and our sales staff is always happy to assist our customers in locating the right size piece for the job. We often run specials and even have a series of bins with discounted small acetal and Delrin drops sold by the pound!

Call us and we’ll cut it!

Plastics in the Industrial Fields

“Go the extra mile. It’s never crowded” – Unknown

Plastic Supply services an endless array of industries, however some of our most common requests consist of polycarbonate machine guards, custom welded chemical and water tanks, drip pans, custom commercial bed liners, clean room inspection stations, spray booths, high temperature gears, endless types of machine and turn parts, abrasion resistant windows, laser blocking windows, urethane and PVC conveyor belts, “go no go” custom gauges and more! In addition to these industrial applications, we also produce contemporary acrylic furniture, outdoor cabinetry,

Our highly skilled staff are perfectionists when it comes to their work. This unit is abrasion resistant polycarbonate and is being bonded through a proprietary process to allow for an air tight bond while maintaining a museum quality polished edge finish.

debate podiums, custom cutting boards, windshields, museum vitrines and spend much time working with artists. Our parts end up all over the world and have even found their way into outer space! “One of the coolest things about being in the industry since the early 70’s” according to Bill Johnson, our General Manager, “is seeing the ever-evolving generations of the same parts pass through or shop over and over again throughout the decades. Many of these parts were partially engineered by myself and it’s something else being involved with the constant improvement and development of, in some cases, 5th and 6th generations of the same part.”

Whether you’re an engineer with 3-D files of an intricate part or a homeowner with a cardboard template of your broken patio table top- we’re going to make sure we get exactly what you need at the very best price.

We’d Love to Hear From You!

“Success is a science; if you have the conditions, you get the result.” – Oscar Wilde

If you have something you’d like us to quote- we’d love to hear from you! We offer free quoting and prefer .DXF files for fabricated parts. While DXF’s are preferable, we can also work from .PDF files, templates, samples and occasionally photos of your part/s. If you just need some raw material, in most cases we can quote you right over the phone. We

PRESS RELEASE

Alliance Manufacturing, Inc. specializes in the engineering and manufacturing of water-based (aqueous) parts cleaning equipment for the industrial products market. Our engineers have developed a full line of aqueous parts cleaning systems, including belt, chain, monorail, front/top loading cabinet, indexing, return-to-operator, compact cell, rotary drum, and customized machines engineered for specific cleaning applications. Alliance holds a patent for the only split-style, removable "Full Access" canopy, which allows for easy interior access for maintenance and process adjustment. Our machines are designed with corrosion-resistant materials for lasting quality and customer satisfaction. Aqueous parts cleaning equipment was developed as an environmentally safe alternative to solvent-based systems. Alliance Manufacturing, Inc. was established in 1994 in Fond du Lac, WI.

"For more information, please contact Alliance Manufacturing at [1-800-969-7960](tel:1-800-969-7960) or sales@alliancemfginc.com, or contact your local representative Skip Marsh with V&A Cleaning, Inc. at [603-899-6490](tel:603-899-6490) or skip@vacleanusa.com"

PRESS RELEASE

Sirois Tool Supports the Peter J. Lavery Scholarship Foundation

Sirois Tool is a proud sponsor of the 13th Annual Memorial Run in memory of Peter J. Lavery. This is the 5th year that Sirois has been involved. "We feel this is an important event to sponsor to show our support for the Lavery family and the entire law enforcement community" states Alan E. Ortner, President at Sirois Tool.

Peter was a 17 year veteran of the Newington Police Department when he was fatally shot in the line of duty. The ride and scholarship honors Peter's commitment to education. He earned his Bachelor's Degree in General Studies from Eastern CT State University at age 39 and continually encouraged others to pursue higher education for themselves as well.

SPECIAL SALE

Heat Treatment Master Control Manual focuses on heat-treating to ASM, SME, and AISI standards. It has been created for use in student education, as well as to guide professionals who have been heat treating their entire lives.

What is different with this manual is that it goes beyond dealing with just the heat side of the treatment process. It continues the process by using cryogenics to produce a 99.9 to 100% transformation of the finest, best grain structure possible. This manual tells exactly how to get the real cost savings and best possible life.

If you desire to produce the best heat treated metal possible and gain an understanding of what goes on in the heat-treating process, this manual will do that.

Written in everyday easy to grasp language, it will serve as a training manual from day one in a classroom, then serve as a day-to-day reference for a lifetime.

This full-color, illustrated manual zeros in on the popular tool steels, alloy steels, heat-treatable stainless steels, case hardening steels, and more. It deals with these metals with fully illustrated processing recipes.

Written for toolmakers, engineers, heat-treaters, procurement, management personnel, and anyone else who is involved in the metals industry.

Page size 7.75" x 10.625" 338 pages, spiral soft cover to lay flat open for quick, easy reference.

NEW GRINDING CAPACITY

We can manufacture complete or regrind your existing parts. Send us your Blueprints or requirements and we will ensure the final product

Our newest Vertical Grinder can handle material up to 48" in diameter and 48" in height.

exceeds your expectations. Get the quality and precision you need from a company with over 50 years of grinding experience.

Our OD Grinder can handle material up to 40" in Diameter and 144" between Centers.
